# O V E R V I E W

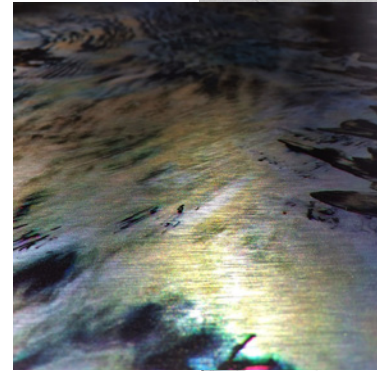

ZEST designer finishes specialise in innovative finishes incorporating direct print to timber, metal, acrylic and glass, as well as stunning wallpapers and skins, often combined with cutting and routing techniques, using state of the art equipment and technology, resulting in designer finishes that are captivating, stunning and impressive in their style and quality.

## METAL PRINTING

Direct printing on to metals including aluminium, brushed steel and other metal finishes creates some of the most captivating and beautiful results available in print.

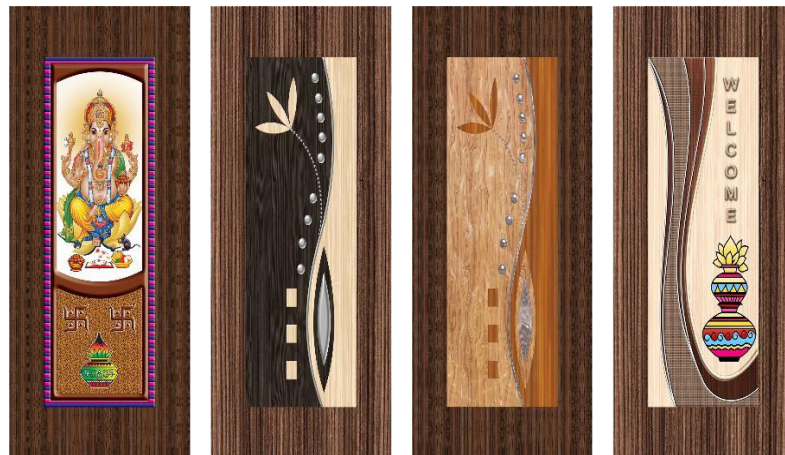

## TIMBER PRINTING

ZEST designer printing is applied directly to beautiful timbers, creating stunning results on light and dark timbers for both commercial and domestic environments.

## ACRYLIC PRINTING & FINISHES

ZEST boutique printing on Acrylic can be produced as a direct print or with a special finish metallic film as an additional element.

Utilised in designer, architectural and fine art spaces, the high gloss of the acrylic is highly durable and sturdy while providing a high end glass-like finish.

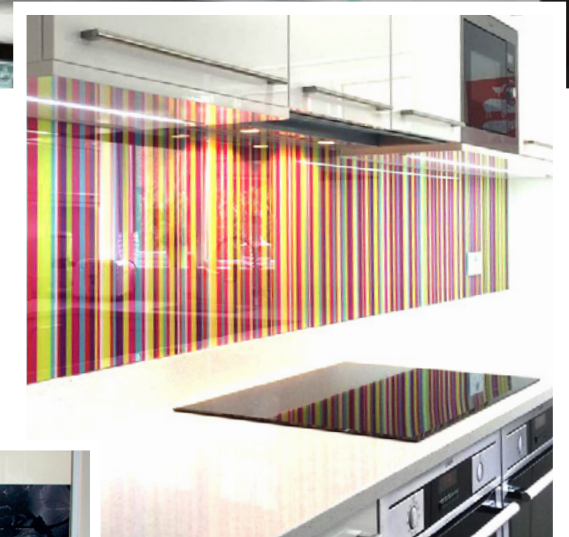

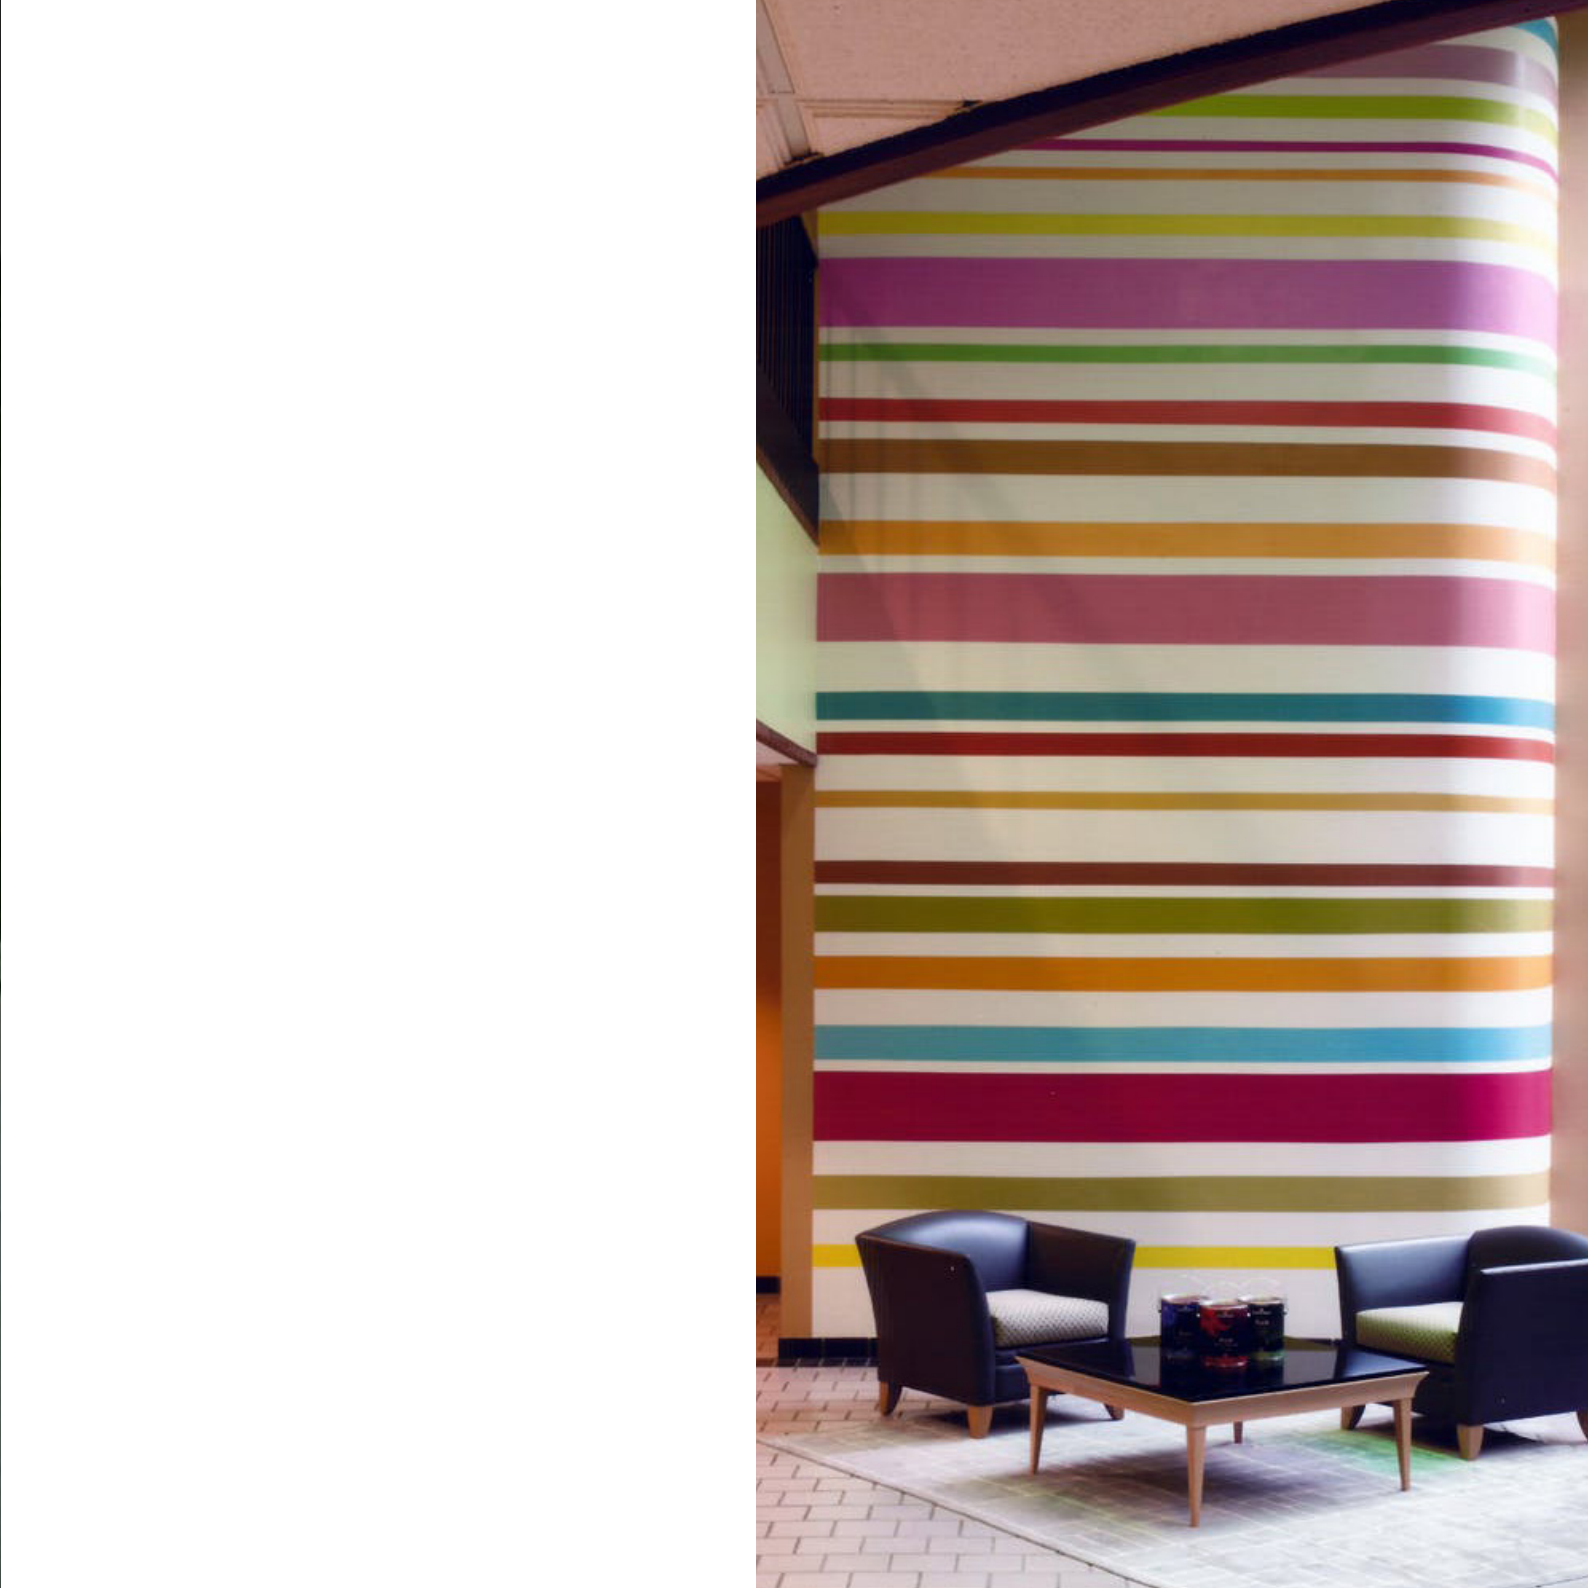

## GLASS PRINTING & FINISHES

ZEST boutique printing for and on glass is utilised in both commercial and domestic environments with amazing results and effects.

Used effectively in designer, architectural and fine art spaces, both clear and frosted effects are created with stunning results..

## 3D PRINTING

Our cutting edge and innovative technology enable us to custom manufacture on demand 3D objects for all designer environments
